

## **7HO9062 O-Bee KROWN-ET: Exciting MR SAM Son Joins the WWS Lineup**

7HO6758 MR SAM has earned the title of “Mr. Satisfaction”, pleasing dairy producers around the globe. Today, more than 30,000 daughters confirm MR SAM’s billing as a consistent transmitter of exceptional rear udders, durable feet and legs, and moderate stature with dairy strength. Now, with release of the April 2010 genetic evaluations, the time has arrived for MR SAM to influence the breed as a sire of sons.

With the release of the April 2010 genetic evaluations, World Wide Sires is proud to introduce the first MR SAM son to join the active line-up, 7HO9062 O-Bee KROWN. Sampled exclusively in Canada, KROWN enjoys a seat on the Top 20 Conformation throne at +12. His daughters resemble the MR SAMs; consistently wide, deep-bodied cows with adequate dairyness, solid feet and legs and super udders. These traits shine through in his U.S. Type composites at +1.95 PTAT, +2.07 FLC and +1.21 UDC. The main difference between KROWN and his sire is that the KROWN daughters are much more extreme in their frame and body traits, illustrated by scores of +3.00 Stature, +2.54 Strength, and +2.01 Body Depth.

***Ebyville Krown Inez GP-84***

This exciting new graduate is truly a product of WWS breeding, as he hails from the same family as 7HO6417 O MAN, and is backed by a 7HO5375 BW MARSHALL dam. MR SAM’s ability to transmit exceptional type, along with his superb Fat %, positive Protein %, and longevity figures make him a logical cross on 7HO5375 BW MARSHALL bloodlines. KROWN’s dam, O-Bee BW Marshall Kelsie-ET, produced over 16,000 kg Milk in her first lactation. Also impressive is that his EX-93 GMD DOM Formation granddam made over 20,000 kg Milk with 4.2% Fat at more than six years of age. The next dam adds to KROWN’s royalty as it is none other than brood queen and dam of O MAN, Meier-Meadows El Jezebel-ET (EX-92 GMD DOM).

A glance at KROWN’s brilliant pedigree, solid Type values, and consistently good daughters confirm the fact that breeders who use him will be royally pleased!

***World Wide Sires, Ltd. remains at the forefront in providing exceptional genetics for outstanding type and phenomenal production. A leading exporter of U.S. livestock semen, World Wide Sires represents Accelerated Genetics and Select Sires in Europe, Africa, Asia, the Middle East, and Oceania.***
